

Our Workshops and Training

Our free and valuable training sessions are approved by the Office of Developmental Programs and provide the most updated information available. Click [here](#) (under construction) to see the training schedule in the Eastern Region of Pennsylvania. To schedule training in the Eastern Region including Adams, York, Lancaster, Chester, Berks, Delaware, Montgomery, Philadelphia, Bucks, Lehigh, Northampton, Carbon, Monroe, Pike, Luzerne, Lackawanna, Wyoming, Susquehanna and Wayne Counties of Pennsylvania, email [Lisa Tesler](mailto:Lisa.Tesler).

In addition to The Partnership, we offer a variety of topics and tools for people with disabilities and families to get information and training. Our Philadelphia Office provides training about safety, fire prevention, housing, education and more. For dates and times, see our [local training schedule](#).

You can also access the College of Direct Support, a web-based tool for families and caregivers, by contacting our Philadelphia Office. This tool gives people the opportunity to learn what the professionals are learning. Also, once trained, families can access this tool to train caregivers and other staff and family members.

For training, contact Kathy Foy at 267-773-5285.
